

Plug Into the Power

Press Release

June 2007

**MANUFACTURERS PULL OUT ALL STOPS AT EMPIRE FARM DAYS FIELD DEMOS
Demonstrations take place daily on the East side of the exhibit site.**

Keeping farmers ahead of the game and abreast of the rapidly changing technology of farm equipment continues to be a goal of Empire Farm Days. The real power and excitement of agriculture and a highlight of Empire Farm Days are the Field Equipment Demos. The most innovative and up-to-date tools for farmers in the Northeast will operate in the field giving farmers the opportunity to see the latest in tillage, forage and hay equipment operating right in the field during the show.

These action-packed demos give manufacturers a chance to show farmers first hand how their equipment responds to actual field conditions and farmers get a chance to talk directly with the company representatives about the equipment while kicking the tires and evaluating the results.

Come see the latest in Guidance Systems for your farm. Find out why farmers across the nation are using Global Positioning Systems to operate field machinery more efficiently. The time and cost savings potential will amaze you and the accuracy of these systems is mind-boggling. See it first at EFD.

FIELD EQUIPMENT SCHEDULE

10 am Daily	Forage Chopping & Handling
11 am Daily	Hay Mowing
1 pm Daily	Tillage/ Guidance Systems
2 pm Daily	Hay (Raking, Baling, Processing Handling)
