

## **RECYCLING AG PLASTICS PROJECT (RAPP)**

VISIT the RAPP demonstration in the Northeast Corner of the Exhibit area to see the newest model of the “BIGFOOT” in action. This mobile baler designed to compact ag films and rigid plastics will be on hand all 3 days of Empire Farm Days. Demonstrations will occur throughout the day.

Visitors will also learn about RAPP’s recycling initiative, Best Management Practices for handling ag films, and how NYS’s new open burning regulations will affect agriculture and what farmers can do to keep it a positive effect.
